MUB ____	Applied Instrument	_____	_____	_____
MUA 500	Graduate Recital (Submit form at least 2 weeks prior)	<u>1</u>	_____	_____

All Recitals: Students are required to write program notes under the supervision of their applied professor. Notes must include biographical info about composer and info about the piece. Cite sources, if used. Translation for voice must be included.

Up to 12 hours of USA courses taken while in another program (or non-degree status) may be applied. Only courses not applied to another degree may count.

Maximum of 12 hours with grades of "A", "B", or "S" of approved transfer credit is allowed. If the university is non-accredited, the individual USA graduate program will determine if the quality and content of the courses meet the standards of the program. Courses older than 7 years at the time of graduation are not valid.

Students admitted to the graduate program will pay graduate tuition for UG classes. Non-degree seeking students can take UG courses but can't use financial aid. Second degree seeking students can get financial aid but degree not required for certification.

A maximum of two courses with a grade of "C" will be counted toward the degree program. GRE scores are valid for 5 years. If you need an override for maximum hours, email Dr. Eric Loomis, Associate Dean, College of Arts & Sciences.
