

The Graduating Student Survey was designed to gather opinions of graduating students

Ninety-eight percent of the respondents said that library resources were sufficient to meet their needs.

Eighty-five percent of students reported feeling safe while on campus.

Eighty-three percent of students agreed that being in a student organization added value to their experience as a student at USA.

The sample consisted of students who were graduating in the Fall 2021 semester. In total, there were 1,383 graduating students; 638 students responded to the survey for a

About \_\_\_\_\_ of students felt there was not enough opportunity to work with faculty on research outside of class.
